

Contact	<i>Rémi Molinier</i>
School/Organization	<i>Polytech</i>
Theme Principal	Introduction to mathematical research with games
Accessible to 8 Schools ?	Yes
Available to Non-Francophone	Yes
Pre-requisite level?	None
Pedagogy Format : <i>conférences / tables rondes / ateliers / FabLab / Hackaton / cours / TD / TP / visite...</i>	Group work
Objective	Discover the world of mathematical research through games
Summary of course	The morning will be focused on working on a problem in groups of around 4 students. During the afternoon, the groups will continue their research and prepare a poster and/or presentation to expose their problems, solutions and reasoning.
