

Main thematic	Ethics X	Fablab	Initiation	Intercultural	Research	Transition
Title	The Ethical Engineer					
Duration, in days	1 day					
Number of students	24 x 2 groups					
Location	SMH	Polytech	Viallet	Presqu'île	Valence	
		X				
Activity open to all the students ?	Yes					
Educational format	Group work, simulation					
Objectives	Understand and apply the concepts of Ethical Engineering, by studying a framework for ethical decision-making which takes into account potential impacts on all stakeholders.					
Description	Different case studies will be examined by using a methodology which identifies all aspects of ethical decision-making. Participants will use the framework in order to improve decision-making. The last part of the module will involve a role-play simulation during which the participants will be able to understand the stakes involved in a realistic situation.
